

# Datasheet Kerio MailServer

IN THE OFFICE. ON THE ROAD. AT HOME.

## Get Five in One

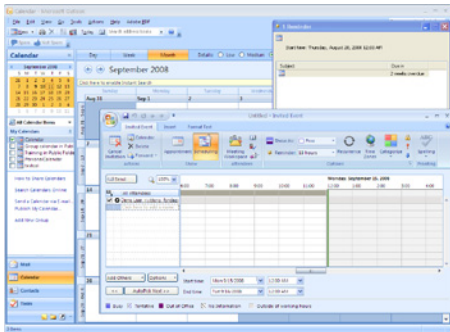

<b>Cross-platform collaboration</b>	Manage email, share contacts and schedule meetings in Outlook, Entourage, iCal, web mail and smartphones.
<b>Wireless mobile synchronization</b>	Synchronize with any smartphone over the air. Delete sensitive data on lost or stolen devices.
<b>Robust email security</b>	Stop unwanted emails with over 14 anti-spam techniques and dual anti-virus protection.
<b>Email archiving</b>	Maintain compliance and minimize liabilities.
<b>Automated backup</b>	Backup and restore data without server downtime.

## CROSS-PLATFORM COLLABORATION

**Email, Calendar and Contacts – Anytime, Anywhere**

### Windows savvy

Manage email and calendars with Microsoft Outlook or Windows Vista's Mail and Calendar applications.

### Kerio WebMail

- Access full groupware features with Internet Explorer, Safari, and Firefox.
- Use Kerio WebMail as a full-featured groupware alternative to desktop applications.

### Mac friendly

- Kerio MailServer is the only Exchange alternative with full and native groupware support for Microsoft Entourage.
- Sync natively with Apple iCal through CalDAV.
- Manage personal and public contact with Apple Address Book.

### Cross-platform interoperability

Bridge the collaboration gap between Mac, Windows and Linux users with more matching collaboration tools than Exchange.

## WIRELESS MOBILE SYNCHRONIZATION

### Increase field productivity

- Push email, calendars, contacts and tasks to mobile workers. Respond to email and meeting invitations while on the go.
- Sync wirelessly with Apple iPhone, Windows Mobile®, Treo Palm, BlackBerry, and Symbian devices that use Mail for Exchange or DataViz's RoadSync client.
- Secure business and personal data on your device. Delete email, calendar and contacts remotely with Kerio Smart Wipe in event your phone is lost or stolen.

### Access from the desktop, the web, or mobile device

	Email	Contacts	Calendar	Tasks	Notes	Shared/Public folders
Outlook	✓	✓	✓	✓	✓	✓
Entourage	✓	✓	✓	—	—	✓
Kerio WebMail	✓	✓	✓	✓	✓	✓
Smartphone	✓	✓	✓	✓	—	—

### Awards

### Testimonials

"To stay competitive in our business, the team of digital technicians need reliable, simple and easy-to-use email, calendaring and contacts on location and at the agency. Kerio MailServer is always up and running with sophisticated built-in capabilities"  
—Martin Mitev, IT Director, Shoot Digital

"... it is crucial [to] have a reliable IT system in order to efficiently run our business. [Since] upgrading to Kerio MailServer, we have much more confidence in our system and are pleased with the results we've seen thus far."  
—Terra Spencer, COO, Leopold Ketel & Partners

"We researched groupware solutions for over a year before choosing Kerio MailServer. Installation was incredibly fast. The web interface is quick, intuitive and full featured."  
—Josh Gaines, Systems Administrator, VMIX

## ROBUST EMAIL SECURITY

### Block Unwanted Emails with the Power of an Email Security Appliance

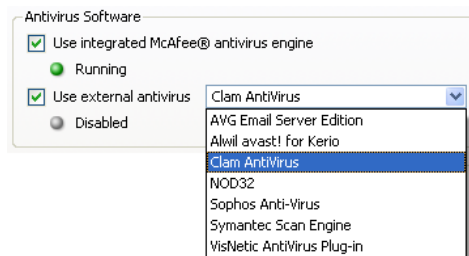

#### Anti-spam protection

Block up to 98% of spam with over 14 anti-spam layers

- Directory Harvest Attack protection.
- Anti-phishing / anti-spoofing.
- Real-time blacklist server.
- Custom whitelists and blacklists.
- SpamAssassin (Bayes, Heuristic, and SURBL).
- SMTP restrictions and more.

#### Conserve server resources

- Block up to 80% of spam before it even reaches the server. This reduces the amount of emails that needs to be filtered and stored on disk.

#### Anti-virus protection

- Filter viruses, worms, Trojans and spyware from incoming, outgoing and relayed emails.
- Simplify deployment with integrated McAfee engine.
- Ready-to-use plugins for other anti-virus engines (ClamAV, AVG, NOD32, Sophos, Symantec, Avast and VisNetic).
- Combine McAfee with a second anti-virus engine for double the protection.

## EMAIL ARCHIVING

### Archiving for compliance or governance

- Archive local, incoming, outgoing and relayed emails.
- View, search and sort through archives for legal discovery or audits.

## AUTOMATED BACKUP

### Easy backup and restoration

- Schedule full or differential backups without having to be present during the backup.
- Run backups without having to stop the mail server.
- Restore user data and server configurations onto another server.
- Recover emptied deleted items for a single user with just a few clicks.

## EASE OF ADMINISTRATION

### Just set it and forget it

- Ideal for organizations with little or no IT resources.
- Install all components with one installer.
- Install in minutes.
- Administer all components through one highly intuitive console. Easy to find settings.
- Administer remotely through secured channels.
- Self-contain services - no dependencies on other services such as SMTP, POP, IMAP, LDAP, and HTTP.
- Virtual appliance installation option for faster restoration and deployment.

## ABOUT KERIO

Innovating in Internet security since 1997, Kerio Technologies, Inc. provides Internet messaging and firewall software that is simple, stable, and secure.

Kerio is headquartered in San Jose, California, and has offices in New York, Great Britain, Germany, Czech Republic and Russia. Kerio is a member of CalConnect, a premier member of the Apple Developer Connection and a Microsoft Gold Partner.

## Server Requirements

### Windows

1Ghz  
512 MB RAM  
Windows 2000/XP/2003/Vista/2008

### Linux

1 GHz  
512 MB RAM  
Red Hat Enterprise Linux 4/5  
CentOS 5.2  
SUSE/openSUSE  
10/10.1/10.2  
Debian 4.0  
Ubuntu 8.04 LTS

### Mac OS X

PowerPC G4 or G5  
Intel Core  
512 MB RAM  
Mac OS X 10.4/10.5

### Virtual Appliance

VMware Server  
VMware Player

## Client Requirements

### Windows

Outlook 2000/XP/2003/2007  
Windows Mail (Vista)  
Windows Calendar (Vista)

### Mac OS X

Entourage 2004/ 2008  
Apple Mail  
Apple iCal  
Apple Address Book

### Web browser

Internet Explorer 6/7  
Firefox 2/3  
Safari 2/3
